SUMMARY

I am a driven and enthusiastic machine learning software engineer with a strong background in software engineering and a passion for online marketing. As a dedicated engineering student and President of the Resilient Equity Green Tech Foundation, I am committed to delivering high-quality technology solutions. I am also deeply passionate about community empowerment and environmental sustainability. With a focus on equity and sustainability in Africa, I aim to make a positive impact on our society while championing the causes of community empowerment and conservation.
